Subject: Revised Time Lines

Attached are the revised sample analysis time lines for PM-8450 and PM-1169. Please note that the AcN in exhalate data and the NNAL/NNAL-gluc data from INBIFO will not be available to the CRU until 03/01/02. The delay in sample analysis for AcN in exhalate was due to required changes in the calibration curve which will result in fewer samples being analyzed per run. This will also affect the report time line for PM-8450. Final bioanalytical data were due to the CRU on 01/18/01 (now 03/01/02). Report dates have been adjusted accordingly. Please contact me if you have any questions or concerns.

Best regards,

Jill M. Schultz
